EDUCATION

DePaul University | Chicago, IL **September 2023 – March 2026**

B.S. in Network Engineering & Security

Relevant Courses: Network Infrastructure Design & Topology, Web Development, Python

TECHNICAL SKILLS

Networking: TCP/IP, DNS, DHCP, VLANs, Subnetting. Routing & Switching (Cisco-based concepts), Network Troubleshooting & Performance Optimization.

Cybersecurity: Vulnerability Assessment & Risk Analysis, Incident Response Fundamentals, Network Security Principles, Firewalls & Intrusion Detection/Prevention Systems (IDS/IPS), Security Best Practices & Hardening Techniques

Systems & Tools: Windows & Linux Administration,, Wireshark, Nmap, Packet Tracer, Virtualization (VMware, VirtualBox), Active Directory Basics, Web Development

PROJECTS

ChronoWizard | Personal Web development Project | ChronoWizard.com **September 2026 - October 2026**

- Designed an interactive website using HTML, CSS, and JavaScript that calculates weekdays for user-selected dates.
- Implemented calendar-related features, including Julian-to-Gregorian calendar transition handling (Year 1582+), custom themes, and shareable results.
- Published the website using GitHub Pages and configured a custom domain, DNS records, and Google Search Console sitemap submission.

Digital Forensics Investigation Lab **Jan 2026 - April 2026**

- Conducted comprehensive digital forensic investigations by analyzing disk images and volatile memory to identify indicators of compromise and reconstruct attack timelines.
- Utilized forensic methodologies to examine file systems, registry artifacts, and system logs, uncovering unauthorized access attempts and malicious activity.

Network Infrastructure Design Project | DePaul University | Chicago, IL **March 2025 - June 2025**

- Designed a secure and scalable network for an e-commerce retailer using a dual path dual layer firewall architecture.
- Implemented IP subnetting, NAT rules, static routes, and firewall configurations to protect transactions, employee data, and remote access.
- Ensured high availability with redundant switches, firewall clustering, and dual ISP links.
- Focused on business continuity, security, and regulatory compliance.

CERTIFICATIONS

CompTIA Network+ **Expected December 2026**

- Actively studying networking fundamentals including TCP/IP, routing & switching, VLANs, subnetting, network security, and troubleshooting.

JOB EXPERIENCE

Grocery Lead | Meijer **April 2020 - Present**

- Supervise daily grocery department operations, ensuring efficient workflow and high standards of performance.
- Increased product availability to 97% by improving stocking processes, inventory management, and team coordination
